ALPICO BUTO

ALPICO BUTO

These tablets are used for the treatment of various conditions of the mouth and throat, including sore throat, tonsillitis, and other inflammatory conditions. They are applied directly to the affected area and provide relief from pain and inflammation.

THE GIBBS OR CANKER OF THE MOUTH.

This is a very common and painful condition of the mouth, characterized by the formation of small, white, ulcerated patches on the inner surface of the lips and cheeks. It is caused by a parasitic infection and is often associated with poor oral hygiene and a diet lacking in certain vitamins. The treatment involves the use of antiseptics and the application of soothing agents to the affected areas.
